**Blue** - Major diameter, containing all points of the triangle.  
**Red** - Solid diameter, the solid circle inside the triangle points.  
**Green** - Centerpoint circle where the drive center points are located.

Centerpoint #1 is on **Green circle**, at intersection of diameter line, at reference mark.  
Compass set to **Green radius** scribes arcs to locate centers 2 & 3.  
Rough blank to slightly larger than **Blue diameter** to reduce weight.  
With blank between centers, on points 1, 2, & 3, turn until contacting **Red circle**  
to keep all 3 sides the same distance from center.
